

# HS-2000

## corded call center headsets

The ideal work-tool for the modern office and call center

### PRODUCT DESCRIPTION:

The HS-2000 is the hameco corded USB headset model with the best value for money. Our goal was to develop a versatile and economical headset which would meet the changing needs of telecommunication – without compromising quality. It is a Plug&Play device, ready to use after connecting. The HS-2000 corded headset was developed for home, office, and call center environments. It is ideal for use with laptops, softphone applications and is compatible with MS Lync (Skype for Business). The product's features include crystal clear audio, a noise-cancelling microphone and hearing protection. The ear cushion and microphone are soft, comfortable, and come with an easy to replace protective foam cushion. The microphone boom arm and headband are adjustable. The call volume can be adjusted, the mute function enabled or disabled, and calls can be answered with the help of the USB controller found on the cord of the headset.

HS-2000D-GQD duo version

HS-2000M-GQD mono version

### Logistical information
